Abraham Park (박아브라함)
Full-stack Developer

Profile

Motivated and ambitious aspiring full-stack developer with a unique background as a Korean-American dual citizen. After a year of dedicated self-study in software development, I am eager to contribute to a growing team, especially in an environment that values diversity and fosters learning. I aim to expand my technical expertise while also contributing meaningfully to your company's success.

Programming Experience

Full-stack developer, Wcoding, Seoul, South Korea
October 2024 – Present
- Co-led a 6-person team from diverse backgrounds (Cameroon, Russia, Uzbekistan, Ireland, America, Korea) on a full-stack web app project
- Kept the team progressing consistently, even through challenges
- Designed the site interface and user experience in React for clear navigation
- Organized the project's file structure for efficiency and maintainability
- Helped the team understand essential backend setup with MySQL and Flask
- Promoted teamwork and a collaborative, learning-focused environment

Professional Experience
